Abstract. The abstract should summarize the contents of the paper and should contain at least 70 and at most 150 words. It should be written using the *abstract* environment.

Keywords: radio astronomy, software defined radio, signal processing

1 Introduction

1.1 Background

This is typically an outline description detailing the background to the problem.

1.2 Scope

1.3 Research Questions

4 Amateur Radio Astronomy with Software Defined Radio

1.4 Methodology

1.5 Preliminary Literature Review

1.6 Contribution to Research Knowledge Anticipated

1.7 Description of the Experimental Design / Validation Methodology

1.8 Special Resources Required

1.9 Main Milestones Anticipated

Bibliography

A Appendix

Here is some content in the appendix

1..1 How I became inspired
